## *Wake Up to Reality*

6<sup>th</sup> July 2010

*Dearly Beloved,*

*Yesterday the oil spill became the largest ever in the Gulf of Mexico. After two and a half months, the amount of oil leaked from the under sea well hit 140.6 million gallon mark. How interesting that the media have stopped talking about this disaster, and the only comments made are whether the shares of the company involved are going up or down. What happened in the Gulf of Mexico and its inhabitants can happen to the whole of humanity. It is because people in their greed and desire for wealth, power and control, are threatening to upset the natural balance of the Earth, and can cause great harm to our environment.*

*I am writing to you today to ask you to consider what is really happening. Because we have all allowed this to happen. For while the oil interests have dominated our ways of transportation and prevented more efficient and earth-friendly technologies to take place, we stood by and watched the greed, the avarice. It is time we became responsible individually. It is time to act.*

*I feel we must reach to the higher realms of consciousness to find the answers to this tragedy of human life and suffering. The Hathors tell us there is a distinct possibility that all the Earth's oceans could be contaminated by this event. There is also a real possibility that there could be a Tsunami of immense destruction caused by the natural gases in this field.*

*Osiris would like to share with you a meditation that can energetically change the whole situation. Will you join us in this? At 8 to 8:15pm every night, we invite you to be with us energetically and take part in this meditation. Please tell your family and your*

*friends and create this time. We are capable of turning this around if there are enough of us that care. Enough who care about our future, the future of our children and grandchildren, and the generations to come. Who care about the New World we are entering, to be the co-creators that we truly are. This is a wakeup call for all humanity, and we pray you will hear what we have to say.*

*We welcome your thoughts and feelings as you bring this meditation into your daily life. We know that as co-creators the outcome is in our hands. Lets make the difference and make it now!*

*You are deeply, deeply loved.*

*So much Joy,*

Isis

### *Meditation for the Gulf of Mexico:*

**Step One:** *Relax and center yourself in your Heart of Hearts full of Divine Love for all things human or non-human seen or unseen. No judgment of any kind.*

**Step Two:** *Call in Mother/Father God, Gaia, all the Archangels, Great Ones, Ancient Ones, The Council which includes Melchizedek, Thoth, Sananda, St. Germain, Kwan Yin, anyone by name that is dear and important to you that is willing to assist. And ask for Guidance and Divine Love.*

**Step Three:** *Create a bubble of Blue Light around yourself as protection from any adverse energies. Make sure it is very powerful.*

**Step Four:** *In your minds eye transport yourself to the Gulf of Mexico to the source of the oil spill. See yourself on the sea floor looking at the oil and gas shooting out of the earth. This is where we will establish our base of operation. We're going to create an Energetic Repair Rig.*

*Lets start by establishing an outer circle with the oil shaft at its centre. We seat ourselves comfortably around the oil shaft on the sea floor within the circle. At the Four Cardinal Directions we invite the Archangels to bring in their energies. Archangel Gabriel to the East, Archangel Raphael to the South, Archangel Michael to the West, and Archangel Metatron to the North. These energies help us to focus on the oil shaft in the middle of the circle. From the East we invite the energy of the Golden Ray, from the South the Pink Ray, from the West the Blue Ray, from the North the White Ray. We hold these energies with our intention and assistance from the Archangels and everyone else we have called in.*

*See the Gold from the East, Pink from the South, Blue from the West, and White from the North forming powerful shafts of energy emanating from the Four Directions and focusing on the oil shaft in the center and also connecting the outer circle together.*

***Energetically we have formed a Cross within a Circle.***

***Step Five:** Now call in the Violet Ray of Transmutation and combine it in the center of the oil shaft. This Ray comes from Mother/Father God to the exact center of our circle. The shaft is the exact circumference needed to encapsulate the oil and gas. This extremely powerful shaft of Violet Light extends all the way down into the main oil and gas reservoir in the Earth. We will restrict all these energies to focus only where needed to repair this leak,*

***Step Six:** We now form a shimmering sphere of Blue Light encompassing all of the people to the outer circle. We can expand or contract this sphere as needed. We have now constructed our Repair Rig.*

***Step Seven:** We now add the Repair Tool. I have been gifted with an important tool. It is a Trident. It is a shaft with three-pronged fork on the end. This is different, though from any trident you have seen. The shaft is jagged like a lightning bolt and at the end of the shaft is an arrow or triangle indicating the flow of energy. The three forks on the other end of the shaft are also lightning bolts with arrows pointing in the opposite direction from the other end of the shaft. This trident is Golden Light. I am now inserting the Golden Trident into the shaft of Violet Light forked end pointing down toward the oil and gas opening. It is just hanging there suspended in the Heart of the Violet Light. We are now directing our energies at the Golden Trident.*

***Step Eight:** We focus our energies on the Golden Trident and start it spinning along its vertical axis in a clockwise direction. Spirit will direct the speed of the spin.*

***Step Nine:** We now direct our Golden Trident down into the oil and gas shaft applying as much energy as is necessary to push the oil and gas back down to its source. We continue to see our Golden Trident pushing this oil and gas ever further back into the*

*Earth until we reach its source in the massive underground reservoir. The Golden Trident continues to spin preventing any oil and gas from escaping. We hold this perfect space. Now, with our Golden Trident, the energy flows in both directions.*

***Step Ten:** We now direct the energies out the other end of our Golden Trident back up the shaft while simultaneously holding the energy of the spinning action which keeps the Well sealed until the shaft itself can be sealed. Now the purpose of the energy being directed back up the shaft is to create a Threefold Flame at the top of the oil and gas shaft on the sea floor. The Threefold Flame is Violet, Gold, and Blue. This Threefold Flame will sit then, at the top of the oil and gas shaft on the sea floor.*

***Step Eleven:** Spin the Threefold Flame in a clockwise manner. Again, Spirit will direct the speed of the spin.*

***Step Twelve:** Divine Love is now flowing out from this spinning Threefold Flame in all directions, into the sea, the Earth, the sky, on all levels and all dimensions. Feel the water react to this Divine Love Energy and also the Earth, the sky, on all levels and dimensions. Feel Divine Energy awakening the water to its natural transmutative powers. The harmful gas and oil is being transmuted and evaporating into harmonic energies conducive to healing all harmful energies. All beings human and non-human that are in need of assistance on all levels and all dimensions will benefit.*

*Now that we have created our Repair Rig we need not recreate it each time we meditate. We can simply bring our mind's eye back to it and continue to reinforce all the energies as needed. As we go about our daily life we can continue to give our loving energy to our Rig by simply bringing our thoughts back to it.*

*So it is!*

*All Love and Joy,*

*Osiris*
